### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

- a. In the abstract, please delete the second paragraph beginning with "A danger detector..."

Applicant is reminded that the abstract should be presented in a single paragraph with no more than 150 words.

### **DETAILED ACTION**

1. The Office acknowledges the changes made to the specification and to the claims by the applicant. The objections to the specification and claims as recited in Official Action mailed July 14, 2004 have been withdrawn.

### ***Allowable Subject Matter***

2. **Claims 12-23** are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record fails to describe or suggest a method for processing alarm signals wherein the signals are analyzed on the basis of their occurrence and classified based on their pattern of occurrence. This along with further limitations set forth by the claims appears to render the application allowable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
